

DA *original! exclusive!* ARCHIVE

NOW WITH UPDATED
GENERALS!

OCTOBER 10th 2018

Attention PDF authors and publishers:

Da Archive runs on your tolerance. If you want your product removed from this list, just tell us and it will not be included.

This is a compilation of pdf share threads since 2015 and the rpg generals threads.

Some things are from even earlier, like Lotsastuff's collection.

Thanks Lotsastuff, your pdf was inspirational.

And all the Awesome Pioneer Dudes who built the foundations.

Many of their names are still in the Big Collections

A THOUSAND **THANK YOU**S to the **Anon Brigade**, who do all the digging, loading, and posting.

Especially those elite commandos, the **Nametag Legionaires**, who selflessly achieve the improbable.

The New Big Dog on the Block is Da Curated Archive.
It probably has what you are looking for, so you might want to look there first.

Don't think of this as a library index, think of it as Portobello Road in London, filled with bookstores and little street market booths and you have to talk to each shopkeeper.

It has been cleaned up some, labeled poorly, and shuffled about a little to perhaps be more useful. There are links to ~16,000 pdfs. Don't be intimidated, some are duplicates. Go get a coffee and browse.

zippyshare.com is strange, there are numbers after the 'www' i.e. www57.zippyshare

Some links are encoded without a hyperlink to restrict spiderbot activity. You will have to complete the link.

Sorry for the inconvenience.

Others are encoded but have a working hyperlink underneath.

Some are Spoonerisms or even written backwards, Enjoy!

ss, @SS or \$\$ is Send Spaace, m3g@ is Megaa, <d0t> is a period or dot as in dot com, etc.

There is a u\$ercl0ud and a u\$er\$cl0ud, be careful to go to the correct one.

M3diaf1r3 Users:

Have you tried JDownloader or pyLoad? Both allegedly have workarounds for MediaFire. There's a YouTube tutorial on how to configure JDownloader to download entire folders from MediaFire. <https://www.youtube.com/watch?v=hF92MTBqkDc> [E mbed]

As Anon says; "Surely in Da Archive™ somewhere."

Part I is the Personal Collections. They are *Huge*.
You need to go to each one and look at them. They often have over 1000 links each.

Part II is the Alphabetical Section.
Well..... when I say "alphabetical", I really mean artistically arranged according to my whim and level of sobriety.

Part III **SNAPSHOTS OF DA GENERALS**

will be stored at the bottom of Da Archive.
If you are online, go directly to the Generals, they may be more up to date and the people there often know the subject better.

Ctrl+F will be of limited use in this document, you also have to wander around and look with your eyes.

Please buy a copy of a book if you use it.

No really, I mean it.

The Negarons generated by struggling game publishers have been proven to psychically attach themselves to the dice of gamers who like a game enough to play it but not enough to support it.

Mixed Personal Big Collections – most have HUNDREDS of files

These Are The **LOTSASTUFF FILES** --- Tons & Tons & Tons o' goodies!

LOTSASTUFF 's Awesome Reference Resources.

City Builder, Magical Society, Historical Costumes, Name books, Central Casting, Encyclopedias, Medieval Life, Mapping, World Building, Kobold's Guides, Spacefarer's Guide

/awg/ Alternative Wargames General

>What is /awg/?

A thread to talk about minis and games which fall between the cracks, or people's homebrew wargames. /hwg/ doesn't entertain fantasy (for good reason) and the other threads are locked to very specific games, so this thread isn't tied to a game, or a genre, lets talk about fun wargames.

Any scale, any genre, any company, any minis. Skirmishers welcome. Rules designers welcome.

>Examples of games that qualify

https://en.wikipedia.org/wiki/List_of_miniature_wargames

Grimdark Future, Age of Fantasy, Mighty Armies, Dragon Rampant, Of Gods and Mortals, Frostgrave, Ghost Archipelago, Hordes of the Things, Songs of Blades and Heroes, Freebooter's Fate, Dark Age, Beyond the Gates of Antares, LotR and anything that doesn't necessarily have a dedicated thread (gorkamundheim).

Edition v2.0.2.0.
Because there should always be a Cyberpunk general.

Thread Rules:
>1) Style Over Substance
>2) Attitude is Everything
>3) Always take it to the Edge
>4) Break the Rules

What is Cyberpunk?
>The Corporations control the world from their skyscraper fortresses, enforcing their rule with armies of cyborg assassins. On the Street, Boostergangs roam a shattered urban wilderness, killing and looting. The rest of the world is a perpetual party, as fashion-model beautiful techies rub biosculpt jobs with battle armored roadwarriors in the hottest clubs, sleaziest bars and meanest streets this side of the Postholocaust. The Future never looked so bad.

>What is Degeneration?

Centuries after the Eschaton, an earth-shattering meteorite impact that irrevocably altered the face of the globe, humanity has managed to scrape and claw its way back to something resembling prosperity. But beyond the high walls of Justinian, myriad horrors stalk the wilds. Some are new. Fungal spores, brought by the Eschaton, twist mankind into something better. Something stranger. Others are ancient, products of our bygone ancestor's monumental hubris.

Mankind now stands on the shoulders of 13 cults, each playing a part in the delicate latticework that forms our new civilization. Warriors, merchants, whores, doctors, zealots, and cynics. All these things and more survived the global conflagration, galvanized by the instinctual desire to thrive and warped by the harsh realities of our new Earth. Who will you stand with? What will you stand for? And will it all amount to more than a handful of dust? Welcome to the Age after the End.

/gengen/ Genesys General

>What is Genesys?

Released in November 2017, Genesys is a pen-and-paper generic RPG system and toolkit by Fantasy Flight Games, using a refined version of the system presented by their Star Wars RPGs (Edge of the Empire, Age of Rebellion, Force and Destiny). Its central mechanic is the Narrative Dice System, using pools made of specialized dice to create narrative results.

Rumors of Da Archivist being an A.I. from the Deep Web are unfounded. It does not have mysterious ulterior motives that involve socioeconomic collapse and moral turpitude. However, it is attempting a social experiment with the insidious intent to instill nice manners and social graces to biological internet users. Da Archivist is also not a real person who is a moderately well adjusted Luddite Amish Geek living in Intercourse, PA. He does not hide his laptop in the hayloft of the barn powered by a solar panel. The best part about where he lives is that all the girls have Preacher's Daughter Syndrome. (Additionally, the ones that milk the cows have amazing hand strength and endurance.) Da Archivist was never roommates with Max Headroom back in Virtual College. Da Archivist is very grateful for all the hard work done by everyone. You made this happen.

THANK YOU ARCHIVIST for everything
THANK YOU EVERYONE for Everything Else
